

THE PINEKNOTTER NEWS

Borough of Northumberland, Pennsylvania

Autumn 2008

2ND STREET COMMUNITY CENTER

Phase III exterior renovations are now complete. Representative Merle Phillips was instrumental in securing the funds to complete the first three phases. In this last phase, the 2nd Street Community Center received all new windows and doors, handicap accessible entrances on all three street levels, new ADA compliant restroom facilities, and new heating systems for the West and East Wing classrooms. Other minor structural interior improvements were also done.

What remains to be finished? While these renovations were vital and necessary, due to budget constraints not all of the anticipated work in this phase was completed. On the list of work to be done includes some interior painting and finishing of the floor in the West and East wings and the interior renovations required in the Gymnasium/Stage and in the Multi-purpose room.

Volunteers led by Darvin Straub have already started to paint the walls in the East wing. The floors

will be refinished at a later date. These rooms will be ready for occupancy in the near future.

The Gymnasium/Stage area and the Multi-purpose room require extensive renovations by professionals. The cost for the basic renovations and new heating/cooling systems in these two rooms is estimated at \$250,000, which excludes painting the walls, finishing the floors and cabinetry in the kitchen.

Funding for both the purchase and the renovations to date was received from the Pennsylvania Department of Community and Economic Development. A grant application has been submitted to the Pennsylvania Department of Conservation and Natural Resources for renovations to the Gymnasium/Stage and Multi-purpose room. We will not know until later in the fall, if the grant has been approved. However, the grant requires the organization to provide matching funds.

A capital campaign is underway for the required match of \$125,000. Pledges of \$37,000 from local foundations and organizations have already been secured.

What is in the future? Planning is in progress for craft and exercise classes, a summer recreation program, and possibly an after-school program in

the multi-purpose room. This room will also be available to the public to rent for parties, meetings, and activities.

Requests from youth baseball and soccer teams have been received to use the gym during the winter months for practice. A local amateur theater company has also inquired regarding the use of the stage. Additionally, the local alumni association has requested space to display historical items of significance to both the school and the town.

What can you do?

Monetary donations can be made to the 2nd Street Community Center fund at the Northumberland National Bank. All funds received will be used for renovation work.

However, we also need volunteers and materials. If you have a few extra hours, volunteers are needed for painting and cleaning. Donations such as paint, gently-used kitchen cabinets or sports equipment are also being accepted. Please call the borough office at 473-3414.

TREK-FOR-TREATS TREASURE HUNT!

Something exciting is about to hit Northumberland – the Trek-for-Treats Treasure Hunt!

Goodies have been hidden at select Northumberland businesses and are just waiting to be found by kids. Treasure maps have been distributed at schools and are available at

participating businesses and the borough office. The goal of this activity is to visit each of the businesses on the map (with an adult) to receive a special treat and a stamp on the map. Once the treasure map has been stamped by each participating business, kids can turn them into the borough office by 5:00 pm on October 24 to be entered to win a great ghoulish prize at the Fall Festival!

Thank you to all of the following participating businesses, treasure hunting would not be as fun without you!

One entry per child.

Participation is limited to children 12 years and younger.

Tom's been hard at work at the playground building the walkway. Built with plain bricks, the design allows for the replacement of a plain brick with an engraved brick. Engraved bricks from previous donators will be placed shortly.

Donations are still being accepted for maintenance and additional equipment. Call the borough office today to donate.

A special thank you goes out to those who came back other times to finish the playground project:

August 8, 2008

Dear Governor Rendell,

The Northumberland Borough Council and the residents of Northumberland are extremely concerned about the recent PennDOT decision to place the Susquehanna Valley Transportation Project in hibernation.

Today's Daily Item reported that the state Transportation Department has approved an update to its 12-year program that outlines \$68 billion in investments and improvements to state highways, aviation, public transit, bridges and rail freight — but does not include the Central Susquehanna Valley Thruway project. The article goes on to note that the project was included in the transportation commission's 2007 12-year program, with plans to complete the design and right-of-way phases in the first four years and construction in the following eight.

Residents had been assured for years that money was allocated to complete the final design of the project, to acquire the rights-of-way and for the relocation of utilities. The Borough Council feels that PennDOT should not be allowed to reallocate any funding that had been secured for the SVTP and that this money should remain with the SVTP. By honoring its commitment for final design, economic development would begin again in the project area since many people and businesses have been reluctant to commit to anything until they know exactly what the project will be and where the project will be located.

With positive comments and support from Congressman James Oberstar, Chairman of the House Transportation Committee, to secure funding to get the bridge from Winfield to Point Township constructed, it is our understanding that funding could be in place as early as next year in the Transportation Reauthorization Bill. Congressman Christopher Carney has been vocal in advocating for the funding and the importance of the bypass to the Susquehanna Valley. Senator Specter is making progress in getting the project added to the Appalachian Development Funding stream. With all the attention that our plight is now receiving in Washington, it makes no sense for our state to abandon the project and this region.

Located in the central part of Pennsylvania, with Interstate 80 and intersecting State Routes 11 and 15 bringing more and more traffic through this area, it is imperative to improve the transportation system. More development and stop lights on Routes 11 and 15 between Shamokin Dam and Selinsgrove will create even more congestion and safety issues. Traffic backup is incredible on weekdays, especially Fridays. And holiday traffic is a nightmare!

The Borough of Northumberland is basically at a standstill at various times of the day due to the volume of traffic, especially trucks, that utilize SR 147 (Duke Street) through Northumberland. The Borough has requested that PennDOT install an additional red light on the highway to insure our residents' safety in accessing the roadway from one of the numerous side streets and also while crossing on foot to the local businesses on the lower side SR 147. For many years, PennDOT has refused this request with one explanation being that the bypass will reduce the amount of traffic on our Borough street. With this recent announcement to abandon the project, Northumberland will become an even worse bottleneck for motorists and Duke Street will become even more of a hazard for residents.

We extend an invitation to you to visit our community at your convenience to see first hand the importance of this project to our residents. On behalf of the citizens of the Borough of Northumberland, Mayor Gretchen Brosius, the Borough Council and I are requesting your immediate and wholehearted support for the continuation of the Susquehanna Valley Transportation Project.

Sincerely,

Bryan M. Wolfe, President, Borough Council

SANTA IS COMING TO TOWN!

Santa will arrive on December 1 at about 7:00 pm. The Sunbury City Band will begin their concert at 6:30 with carol singing to follow. Refreshments will be served by the committee too. Vendors will be displaying their wares beginning at 5:30 pm.

This year we will once again welcome vendors for the festivities with food, crafts, homemade wreaths, and baked goods, etc. If you or someone you know might be interested in having a stand to sell your goodies, give Noelle a call at 473-7563. This is a great opportunity for churches to sell remaining bazaar items or maybe just to make a bit of extra spending money for Christmas!

The committee thanks the Joseph J. Anselmo Sr. Community Trust for their continued support of this event. Many thanks go out to the Northumberland-Point Township Kiwanis organization for supplying goodies for this fun evening as well.

If you would like to help out in any way, call the borough at 473-3414. Thank you!

BOROUGH HOUSEKEEPING

Leaf Pickup

The borough will be recycling leaves into mulch. Leaves must be placed between the curb and sidewalk, please not on the street. Your No Parking sign indicates the day of the week the leaves will be picked up. Final collection dates for leaf pickup are set for the week of December 1.

All Christmas trees should be curbside by the week of January 14, 2009 and free of all trimmings and *not* in a bag. FYI: Grass clippings are not to be placed on the street at any time.

Office Closings

The Borough Offices will be closed on November 27 and 28 for the Thanksgiving Holiday, and on December 25 and 26 in observance of Christmas. The offices will also close at noon on December 31 and will be closed on January 1, 2009 for the New Year's holiday.

Snow Removal

Heavy snowfall is always a problem. It would be helpful when a storm is imminent if larger parking areas are kept free by grouping cars together. In this manner, the plow can clear larger spots at once. As areas are cleared, cars can then be moved to allow clearing of the remainder of the street. Snow may not be thrown on the street. The street department appreciates your cooperation.

Come in and check it out!

Speaking of changes, the library has moved some items around. For spatial concerns, we are no longer keeping months of magazines. Magazines are recycled or placed on the "Free" shelf as we receive new copies. Check out the new laptops, high top cafe' style table, and easy access to books.

The Cross Keys Cafe', the library's own small coffee bar, will begin serving coffee again in September. Once again, you can enjoy a cup of coffee, snack, or cold beverage (in a covered container) while reading a book, working on a computer, or just visiting. The Cafe' hopes to continue to offer new snack items as the fall months progress.
